Should focus on campus placement

N/A

Well Experienced, well educated, internship must

To hired experience teaching staff

Good learning

Add library and sports session for students

Bad

First of all focus on teaching practically and give some starting fy to ty basic to advance small small project to develop well they help student actually what is project of final year

Teaching is well but you can give student some practically task short point to explain in the class one by one it's helpful for stagedaring

Focus on the communication for student improve communication skills it is most important for placement and IT industry career and well develope for student skills and easily crack interview

Im not feel like College in ICMS, they always watching our activities no freedom or friendly environment overall. Needs to make friendly environment over there.

Teaching system is very well and great

NA

not experienced teachers
Not proper communication

- 1 Experienced Teacher Staff Available
- 2 placement
- 3 more programming Language Teach as compared to theory subject

Change the entire teaching staff Recruit new experienced teachers in their place give best and quality facilities to students If you can't do this, close the department don't Play with students money and their valuable time

Arrenge session for improving English communication.

The curriculum is relevant and prepares me for my career.

Good college

1. ****Incorporate Interactive Learning Methods****: Traditional lectures can sometimes be less engaging. Introducing more interactive elements, like group discussions, hands-on projects, and case studies, can make learning more dynamic and encourage active participation. Additionally, integrating digital tools and simulations can help students better understand complex concepts.

2. ****Provide More Industry Exposure****: Partnering with industries to offer internships, workshops, and guest lectures from industry experts can help students gain practical knowledge. It bridges the gap between theory and application, helping students develop skills relevant to their field and boosting their career readiness.

3. ****Enhance Feedback Mechanisms****: Establishing a strong feedback loop between students and instructors can help both parties improve. Regular feedback sessions allow students to express their learning challenges and suggest areas for improvement, while instructors can use this feedback to tailor their teaching methods to better address students' needs.
